Reason for Delaying the Morning Bulletin.

THE NATIONAL BOARD OF HEALTH has received the following advices: At Rio de Janeiro, during the three weeks ending August 20, there were four deaths from yellow fever, three from small-pox, four from typhoid fever, eleven from pernicious fever. At Point-a-Pitre, Gurndaloupe, there were four deaths from yellow fever during the two weeks ending August 27.

The bulletin issued yesterday evening was as follows:

"ELBERON, N. J., Sept. 14—6:30 p. m.—
At the examination of the President at 12 m. to-day his temperature was 98.8°; pulse, 104; respiration, 20. At the evening dressing, at 5:30, the temperature was 99.2°; pulse, 112; respiration, 21. The President was placed on the invalid chair in a semi-recumbent position about 12 m., and remained one hour and a-half, sleeping a part of the time. He was not fatigued by the transfer or change if position, and his general condition this evening is as favorable as usual, notwithstanding a slight febrile rise."

edge on which to calculate the President's chances."

Lono Branch, Sept. 15.—Much uncasiness is caused by the very great delay in issuing the morning bulletin. This uneasiness has been intensified by the fact that both Dr. A new and Dr. Hamilton went to the President's room a few minutes after 8 o'clock auc. still remained there after half-past nine. It had been understood that Dr. Agney was to have taken the early train to Philaselphia, and the fact that he had not done so was construed into a verification of He expresses himself sanguine of Readjuster victory.

This Morning's Bulletin.

The bulletin was issued this morning at 10 o'clock, and is as follows:

"ELBERON, Sept. 15—10 o'clock a. m.—At the morning dressing, at 8:30 o'clock this morning, the President's temperature was 98.04°, his pulse 100, and his respiration 20. He passed the night comfortably, sleeping until 3 o'clock this morning, when he was wakeful for a period of two hours. At the session yesterday the committee on education reported as follows: They recommend "that the churches see to it that every young man licensed or ordained from time to time shall not only have a conrion time to time sharinot only have a consistent Christian character, but an education that will qualify him for the work of the ministry; that the institution established by our worthy brother, Rev. R. S. sleeping until 3 o'clock this morning, when he was wakeful for a period of two hours, during which time the pulse rose to 120, but without the marked elevation of temperature which has characterized the febrile disturbances heretofore. After this time he slept until morning. More nourishment was given during the night than for several nights past. In reviewing the case of the President since ha arrival at Long Branch it may be said that, in spite of the various septic accidents which have for several weeks and do still complicate his case, he has certainly not retrograded, but, on the contrary, has made some progress foward convalescence. Laws, be commended to the sympathy and support of the brethren. To the several churches of the association we recommend churches of the association we recommend Wayland Seminary, an institution where an education can be acquired which will enable young men to become efficient workers in the churches; that the pastors encourage the young men and women of their congregation to seek such an education as will make them successful workers in the cause of Christ," and, in conclusion, they piedge themselves to the cause of Christian education. President King, of Wayland Seminary was present, and by request

is better than yesterday morning. All the indications are that the patient's symptoms have been slowly falling to normal. Dr. Hamilton's Hopeful View.

Long Branch, Sept. 15.—Dr. Hamilton, who has persistently refused, while at Elberon, to say anything regarding the condition of the President, outside of what was reported in the bulletins, said in conversation with a friend, a guest at Elberon, today, that the chances of recovery are now good. There are no active disturbing elements in the case, nor indications of new complications, although they are possible so long as the septic condition of the blood is not thoroughly eliminated, and while the septic condition continues there will necessarily be fluctuations in the pulse, repiration, and temperature.

"It will probably be a long period; perhaps five weeks before this trouble is entirely removed; and after that recovery will be very rapid, and it is my opinion that Mr. Garfield will ultimately be as well as before he was shot."

Dr. Bliss on his way to the train to New York stated that the trip to New York was

Beath of Madame Bonaparte.

Baltimore, Mo., Sept. 15.—Madame Susan May Bonaparte, widow of Jerome Napoleon Bonaparte, died at ten minutes after 7 o'clock this morning, at her residence, No. 85 Park avenue, aged 69, of paralysis. Madame Bonaparte has been failing rapidly for the last six weeks, and on Sunday last her physician, Dr. Mackenzie, realized that her death was only aquestion of a few days. Since Sunday she was in a semi-conscious state and unable to converse, and this morning she passed away quietly while het two sons, C. J. Bonaparte, and Col. Jerome Bonaparte, watched at her bedside, Madame Bonaparte was the daughter of Benjamin Williams, a prominent merchant of Baltimore, and formerly of Roxbury, Mass. She was married in Baltimore, in 1829, to Jerome Napoleon Bonaparte, who was the only son of Jerome Napoleon, brother of the Emperor Napoleon I., and Elizabeth Patterson, whom the prince married in Baltimore, Of the two sons of Mrs. Susan M. Bonaparte, the eldest, Col. Jerome Bonaparte, is a graduate of West Point, and was lieutenant in the army of the United States. He also served in the French army during the Crimean and Franco-Prussian war, but did not gain that recognition to which he felt entitled on account of his descent from Napoleon the great. poleon the great.

DUBLIN, Sept. 15.—The executive of the Land League will submit resolutions to the National Convention declaring that the cause of the political and social ills impoverishing the country is the detestable system of alien rule, and that the people can never be prosperous and content until they enjoy the right of self-government, for which they will never cease to struggle. A second resolution denounces the cocretion act as having been devised in a spirit of malignant hypocrisy, and executed for the gratification of private viudictiveness and for the suppression of admitted public rights upon men who bore a heavy share in the movement which led the government to initiate the Land bill. Another resolution characterizes the Land bill as radically insufficient, and says it cannot be accepted as a just, wise, or even temporary settlement of the question. The executive invites the convention, therefore, to solemnly pledge itself to a determined adherance to the principles of the Land League until all its aims are fully accomplished. A preliminary cenference will be held by the ropresentatives of the Land League Convention for the purpose of deciding upon the action of the labor delegates at the Convention. It has already been decided by the leaders of the Land League to establish a Labor League executive, to be affiliated with the work in conjunction with the Land League, but to be composed exclusively of representatives of actual laborers. The objects of this executive are the extension of the franchise to laborers, the return of labor representatives of actual laborers. The objects of this executive are the extension of the franchise to laborers, the return of labor representatives to Parliament and the establishment of peasant proprietary.

Destructive Fires.

CINCINNATI, O., Sept. 15.—At 1 o'clock this morning a fire broke out in a large building on Richmond street, known as the Boate picture frame factory, completely destroying it. The building was occupied in part by Hunt, Holtzinger & Company, manufacturers of frames, and the Cincinnati Coffin Company. This is the third time the latter company has been burned out it a year. The wall of the factory fell, crushing the residence of J. Ezekiel, which was burned and also that of J. Callahan. The total loss is estimated at \$76,000. was birned and also that of J. Callahar. The total loss is estimated at \$76,000, divided as follows: Cincinnati Coffin Company, \$35,000; Hunt, Holtzinger & Co., \$40,000; and J. Ezekiel, \$6,000. The other losses are pineed at \$10,000. —Another difficulty has arisen among the contractors. This time it is Himber & Figteher who have failed to Init's contract for reconstructing the son and of the old George town market at a contract price of \$1,120. The work was to jave been contractors, it is still in an unimished condition, no work having been done upon it since August 12. The secontractors, it appears, have drawn all but about \$400 of the money and applied it to other purposes, the result of which is that they are now without funds with which to complete the work, and, having referred
